

Executive Summary

Gulfstream® G550®

Bon Voyage

Let the Voyage Begin

The image shows the interior of a private jet cabin. On the left, a large, tan leather seat is visible. In the foreground, a wooden table is set with a green placemat, a white plate of food (a tart with kiwi and raspberries), a white mug of coffee, and a vase of red and yellow flowers. To the right, a small entertainment screen is mounted on the wall, displaying a map. The cabin has oval windows and recessed lighting.

Welcome
An Environment Created **Just for You**

Surround yourself in the opulence of best-in-class comforts. With up to four living areas and ample storage space, the G550 offers the most comfortable, productive and impeccably equipped cabin in its class.

Image captures the Universal Aft Galley interior with seating for 14, berthing for six.

What if you had a fax machine, printer, wireless local area network (LAN) and satellite communications (SATCOM) at your fingertips wherever you travel?

Consider It Done

At Gulfstream, we have anticipated your every need by providing all of these standard features – and then some. This ensures that when you travel, your business goes with you.

Gulfstream's Broad Band Multi Link (BBML), optional on the G550, provides significantly faster internet connections than single, dual or quad channel systems. BBML enhances your connection speeds by up to 3.5 megabits per second while lowering your operating costs per minute, utilizes ARINC SkyLink services and supports KU-band and L-band connections. This communications advance currently encompasses the United States and Europe with coverage that continues to expand.

Impeccably
Designed to Maximize Productivity
Wherever You Are
Equipped

Whatever Your Needs the G550 Exceeds Them

Within our intelligently arranged floor plans, you'll enjoy the G550's comprehensive entertainment system. This includes Airshow, two dual DVD players, a multi-disc CD player and two LCD monitors. Whether utilizing your G550 as a restful retreat or fully functioning office, you're certain to enjoy every moment.

In addition, the G550 also features a large, full-size forward or aft galley designed for hot meal service, with fitted storage areas for china and cutlery, a water sterilization system and dual coffee makers. There are two lavatories: One which features two floor-to-ceiling closets and a mirrored vanity with storage and a second for passengers or the flight crew. The G550 also has the option for a crew rest area designed especially for long-haul trips, when an extra crew member is needed.

The Perfect Fit, the Ideal

With the expertise of Gulfstream's interior designers, engineers and skilled craftsmen, you can create a one-of-a-kind cabin environment that is conducive to every preference and mission requirement. Simply choose from our Select or Tailored configurations, and Gulfstream will craft your perfect cabin, replete with exceptional comfort distinguished by the meticulous attention to detail that has built our strong reputation for superior quality and craftsmanship.

Uniquely You, **Uniquely Gulfstream**

The combination of 100 percent fresh air, a low cabin altitude of 6,000 feet and an abundance of natural light from Gulfstream's signature oval windows all help to dramatically decrease the effects of jet lag typically associated with air travel. To further enhance your every flight, advanced soundproofing provides a quiet cabin to ensure you experience minimum interference for maximum comfort. All while climbing to 41,000 feet in approximately 20 minutes, well above traffic and adverse weather.

Extraordinary? Yes.

It is a Gulfstream after all.

Forward Galley Configuration

Standard Features

Forward Entryway

- Entryway acoustical door
- Cockpit privacy door
- Manual storage cabinet
- Crew refreshment compartment

Forward Entryway *(with Crew Area)*

- Entryway acoustical door
- Cockpit privacy door
- Crew area
 - Berthable single seat with pull-out footrest
 - 16" x 23" Console table
 - 7" Plug-in LCD monitor
 - Telephone handset
- Crew closet with manual storage

Cabin Comfort

- Interior Periphery:
 - Headliner
 - Electric window shades
 - Decorative continuous sidewalls
 - Decorative continuous window overlays
- Passenger service units:
 - LED reading and table lights
 - Swivel air outlets
 - Audio system speakers
 - General cabin lighting
 - Passenger oxygen
- Magazine racks

Seating

- B / E Aerospace Model 900 berthable single seats with pullout footrests
- B / E Aerospace Model 900 four-place conference grouping
- Four-place berthable divans

Tables

- 25" x 23" work table between each set of single seats
- 16" x 23" work table at single seats *(not available in Crew Area Configuration)*
- 43" x 31" conference table at four-place grouping

Credenza

Located across from conference grouping or left-hand divan incorporating the cabin entertainment equipment, facsimile machine and miscellaneous storage

Galley

- Complete hot / cold meal and beverage service
- High-temperature oven
- Microwave oven
- Dual coffee makers

- Two large ice drawers
- Cold food storage with thermo-electric cooling
- Solid surface countertops
- Large sink with hot and cold water faucet
- Gulfstream-supplied china and cutlery, including fitted storage
- Gulfstream-supplied crystal displayed in lighted compartments
- Storage for snacks, beverages, food and other supplies
- Large waste receptacle
- Customs sealed wine and liquor storage
- Water sterilization system

Forward Passenger Lavatory

- Vanity with sink incorporating hot and cold water faucet
- Solid surface countertop
- Vacuum toilet
- Storage for toiletries, etc.
- Waste receptacle

Forward Crew Lavatory *(with Crew Area)*

- Sink incorporating hot and cold water faucet
- Vacuum toilet
- Storage for toiletries, etc.
- Waste receptacle

Aft Lavatory

- One floor-to-ceiling closet with adjustable shelves for garment / miscellaneous storage *(Crew Area Configuration includes two closets)*
- Vanity with sink incorporating hot and cold water faucet
- Solid surface countertop
- Vacuum toilet
- Storage for toiletries, etc.
- Waste receptacle

Cabin Electronics

- Rockwell Collins "A" series controls throughout interior
- Master control for lighting, entertainment systems and cabin temperature at two VIP seat locations, as well as in the galley
- Audio / Visual equipment:
 - Compact multi-disc CD player
 - Two dual DVD players
 - 20" LCD monitor in forward cabin bulkhead
 - 17" LCD monitor in aft cabin bulkhead
- Cabin audio system with individual headphone controls at each passenger seat
- Airshow 4000 passenger flight information system with worldwide maps
- Telephone handsets at four locations in the cabin, which will function with either the Iridium or the INMARSAT satellite communications system
- Plain paper facsimile machine
- Electrical utility outlet at each seat grouping
- Two color touchscreen remote controls
- Passenger address system
- Wireless Local Area Network (LAN)

Avionics

- PlaneView® Cockpit:
 - Honeywell Primus™ Epic Suite
 - Gulfstream Enhanced Vision System™
 - Honeywell Head-Up Display / Visual Guidance System
 - ACARS system with satellite communications link and cockpit printer
- Passenger address system
- Aircell Iridium communications system
- Three VHF navigation systems
- Three VHF communications systems
- Honeywell MCS-7000 Satellite Communications (SATCOM) system
- Emergency locator transmitter (triple frequency)
- Dual 24-Channel Global Positioning System
- TCAS 2000 collision avoidance system
- Enhanced GPWS with windshear detection
- SecuraPlane 500 Security system

Exterior Paint

- Single base color with up to five stripes

Miscellaneous

- Common keyed locks
- Life vests and rafts
- Lockable fuel caps
- Precise Flight Pulselite system
- Wing tip taxi lights
- Maintenance storage box
- Tow bar and storage
- 30-gallon pressurized water system
- Passenger emergency oxygen system

Note: Choose from a selection of premium quality leathers, upholstery fabrics, wood veneers, metal plating and 100% wool carpeting.

Decorative inlays and exotic covering materials available at an additional cost.

Optional Features

The items listed below are available as options (some at additional cost).

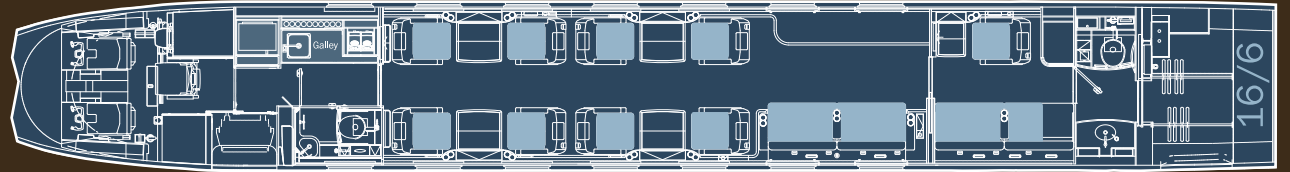

7" LCD monitors mounted in the sidewall at the single seats
SecuraPlane camera system (three cameras)
Honeywell LSZ-860 lightning sensor system
Honeywell DBS satellite television system
Mid-cabin bulkhead or privacy curtain
Broad Band Multi Link (BBML) High Speed Data System
Two-tone exterior paint
Teflon coating over exterior paint
Part 135 Compliance
Export Certificate of Airworthiness
Baggage fold-down shelf
Espresso maker

EXECUTIVE Forward Galley

Accommodates up to 16 passengers with berthing for six.

Uniquely designed to feature:

- Forward galley and passenger lavatory
- Two, four-place-club grouping in the forward and mid cabin
- Four-place divan and credenza in the aft cabin
- Single club chair and divan in the aft stateroom

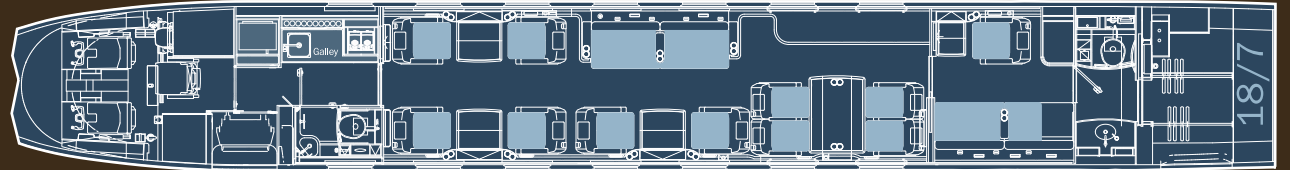

UNIVERSAL Forward Galley

Accommodates up to 18 passengers with berthing for seven.

This flexible cabin features:

- Forward galley and passenger lavatory
- Forward cabin four-place-club grouping
- Mid cabin two-place-club grouping and four-place divan
- Aft cabin four-place-conference grouping and credenza
- Single club chair and divan in the aft stateroom

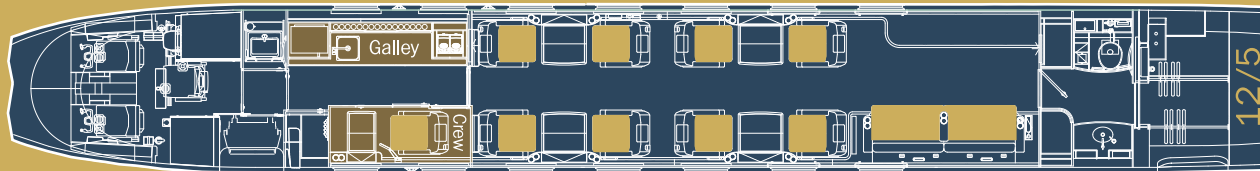

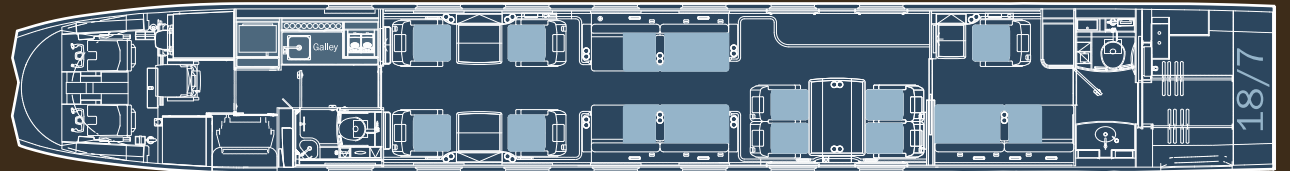

HALLMARK Forward Galley

Accommodates up to 18 passengers with berthing for seven.

Featuring:

- Forward galley and passenger lavatory
- Forward cabin four-place-club grouping
- Two, three-place divans located mid cabin
- Aft cabin four-place-conference grouping and credenza
- Single club chair and divan in the aft stateroom

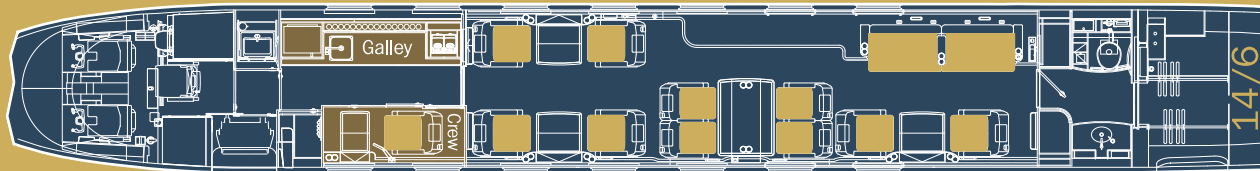

EXECUTIVE with Crew Area

Accommodates up to 12 passengers with berthing for five.

Uniquely designed to feature:

- Forward galley and crew lavatory
- Two, four-place-club groupings in the forward and mid cabin
- Four-place divan and credenza in the aft cabin

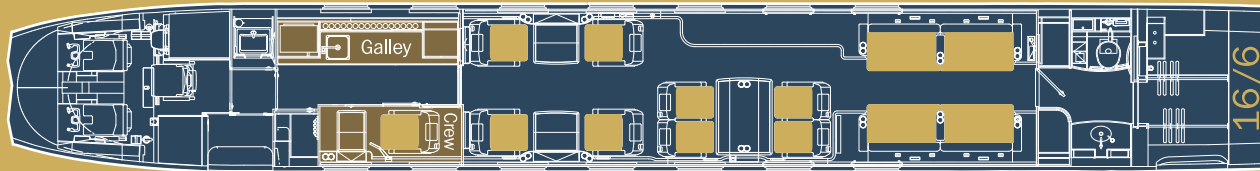

UNIVERSAL with Crew Area

Accommodates up to 14 passengers with berthing for six.

This flexible cabin features:

- Forward galley and crew lavatory
- Forward cabin four-place-club grouping
- Mid cabin four-place-conference grouping and credenza
- Aft cabin two-place-club grouping and four-place divan

HALLMARK with Crew Area

Accommodates up to 16 passengers with berthing for six.

Featuring:

- Forward galley and crew lavatory
- Forward cabin four-place-club grouping
- Mid cabin four-place-conference grouping and credenza
- Two four-place divans located aft cabin

Aft Galley Configuration

Standard Features

Forward Entryway

- Entryway acoustical door
- Cockpit privacy door
- Manual storage cabinet
- Crew refreshment compartment

EXECUTIVE Aft Galley

Accommodates up to 14 passengers with berthing for five.

Uniquely designed to feature:

- Six-place-club grouping in the forward cabin
- Four-place-club grouping in the mid cabin
- Four-place divan and credenza adjacent to galley

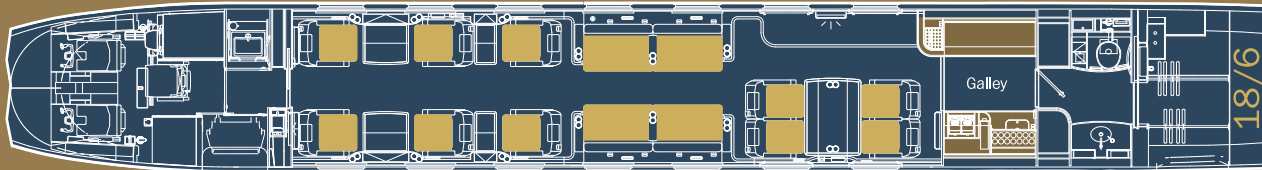

UNIVERSAL Aft Galley

Accommodates up to 16 passengers with berthing for six.

Uniquely designed to feature:

- Six-place-club grouping in the forward cabin
- Two-place-club grouping and four-place divan in the mid cabin
- Four-place-conference grouping and credenza adjacent to the galley

HALLMARK Aft Galley

Accommodates up to 18 passengers with berthing for six.

Uniquely designed to feature:

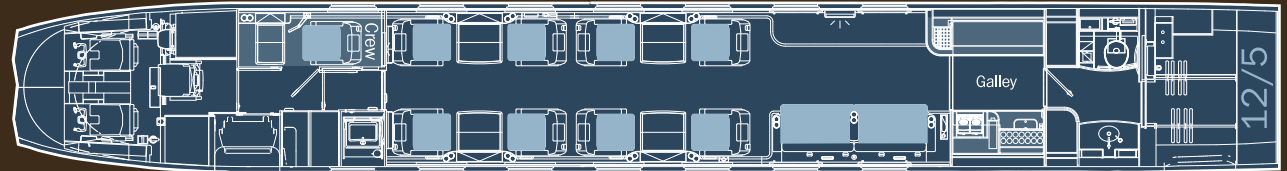

- Six-place-club grouping in the forward cabin
- Two four-place divans in the mid cabin
- Four-place-conference grouping and credenza adjacent to the galley

EXECUTIVE with Crew Area

Accommodates up to 12 passengers with berthing for five.

Uniquely designed to feature:

- Four-place-club grouping in the forward cabin
- Four-place-club grouping in the mid cabin
- Four-place divan and credenza adjacent to the galley

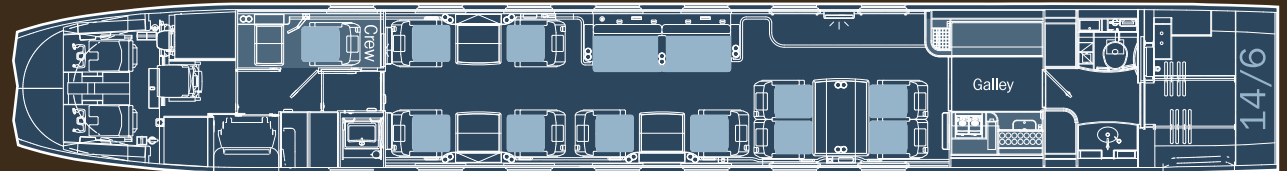

UNIVERSAL with Crew Area

Accommodates up to 14 passengers with berthing for six.

- Two, four-place divans in the mid cabin
- Four-place-conference grouping and credenza adjacent to the galley

A Gulfstream aircraft is shown in the upper right corner, flying above a vast, golden sea of clouds. The sky is a warm, hazy orange, suggesting a sunset or sunrise. The clouds are dense and textured, creating a sense of depth and atmosphere.

At Gulfstream our products reach far beyond the expected to the truly unimaginable. We believe our visionary philosophy is what has made us the industry leader. As we continue to redefine The World Standard® year after year, your in-flight experience is enhanced as well.

Simply put, that's innovation at its best.

Taking the **Expected** Out of Expectations
Expectations

G550

N550G

We invite you to continue your journey

of the G550 by reviewing the reverse of this brochure where we delve into the technology that powers this remarkable aircraft.

You'll marvel at the PlaneView cockpit and Enhanced Vision System. Revel in its improved range and fuel efficiency. And know, without a doubt, that the G550 is a technological masterpiece that was created to the highest of standards.

This is excellence redefined.

This is the technology of the G550.

Gulfstream®
A GENERAL DYNAMICS COMPANY

G550

Intelligent, Functional, *Designed for Excellence*

The G550 is the best large-cabin, ultra-long-range, high-performing business jet in its category, featuring advanced technologies including the state-of-the-art PlaneView cockpit as well as the exclusive Gulfstream Enhanced Vision System.

With its clean lines and precise angles that both intrigue and astound, the G550 is certainly impressive to behold. Combine its extraordinary performance capabilities, reliable systems, revolutionary safety technology and award-winning product support and it's easy to recognize that the G550 is, in no uncertain terms, designed for excellence.

Photo shown with optional SV-PVD.

Gulfstream's Enhanced Vision System (EVS) – Standard on the G550

Gulfstream pilots testify to a quantum leap in situational awareness and are decisively confident in the system. Even with challenging approaches at night, EVS provides the explicit situational information needed for safe taxiing, flying and landing decisions.

EVS provides a distinct advantage in conditions that may hamper other business jets. Gulfstream was the first to bring this revolutionary safety advance to the business jet market and the first to introduce the next generation EVSII and HUDII. It's good to be the first – and the best. Once again, Gulfstream has proven that.

without EVS

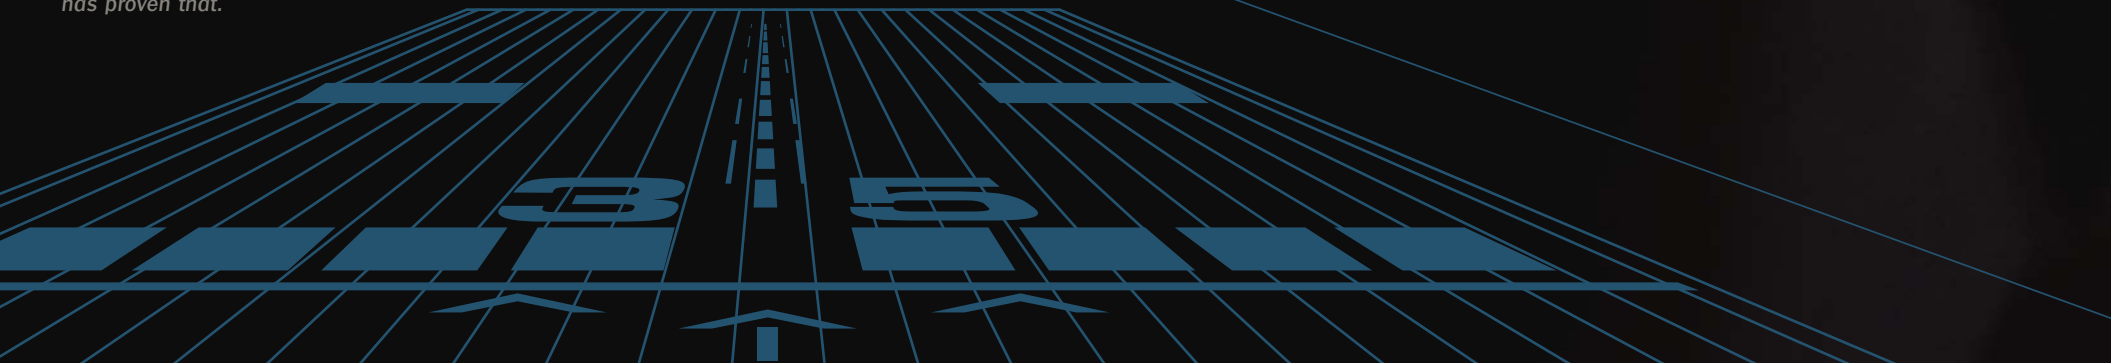

with EVS

The PlaneView Advantage

Now, the very best technology meets the very best aircraft.

PlaneView is simply the most advanced flight deck in existence. From its display technology, to its avionics architecture, processing power and Interactive Navigation (INAV) management system, PlaneView greatly improves situational awareness, safety and overall performance with every flight.

PlaneView was designed not just for today's aviation needs, but also with an eye to the future and incorporates the finest technology available. The open architecture of the G550 cockpit provides the capability to easily integrate the very latest in avionics functions – in preparation of those that are not yet envisioned.

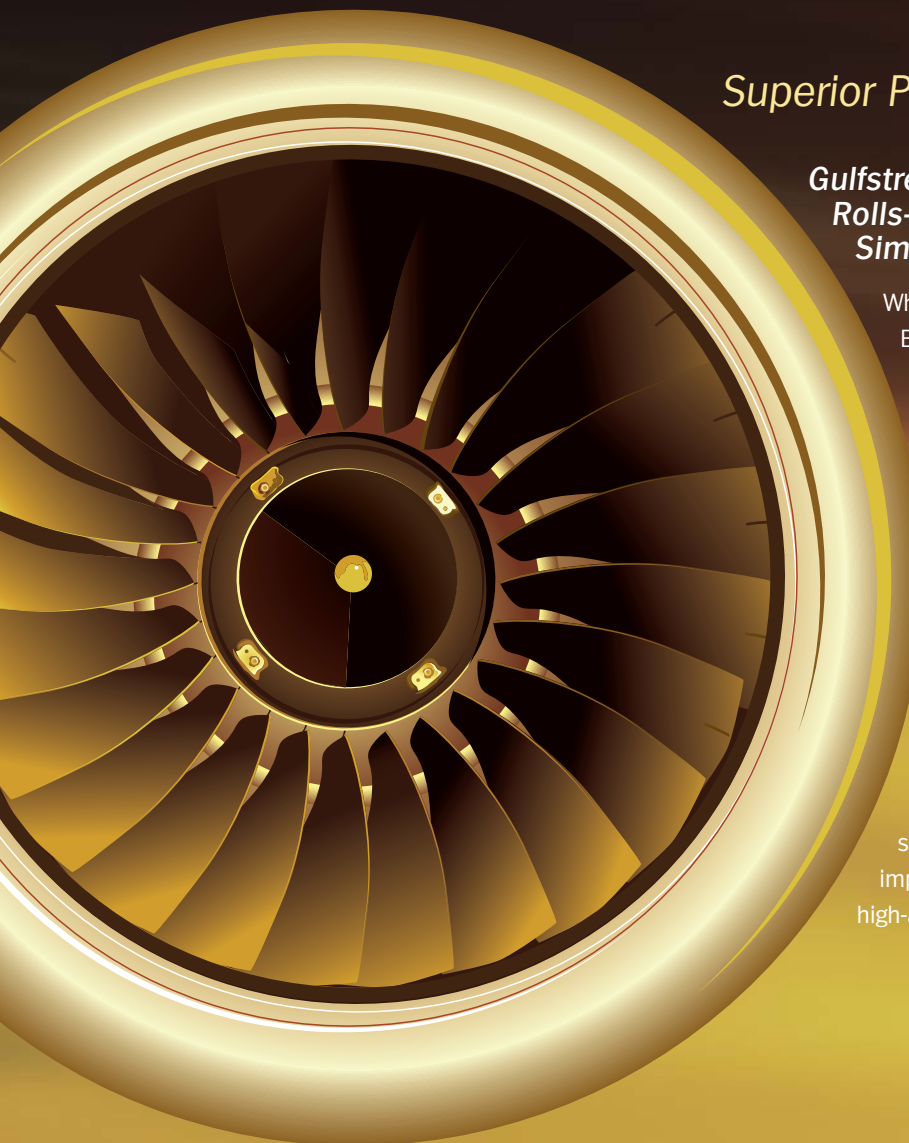

- ✓ Granted commonality of pilot type ratings by U.S. and international certification authorities for the GV®, G350®, G450®, G500® and G550
- ✓ Optional Synthetic Vision – Primary Flight Display (SV-PFD) is revolutionary technology that dramatically improves a pilot's situational awareness in regards to terrain, runway environment and major obstacles

As part of the PlaneView technology, your G550 cockpit includes the Cursor Control Device (CCD), the interactive interface for the PlaneView system. The CCD controls graphical flight planning, graphical radio tuning, display selection, cursor positioning, range control, CAS and menu scrolling, as well as target selection.

PlaneView
The Most Advanced Cockpit in Business Aviation

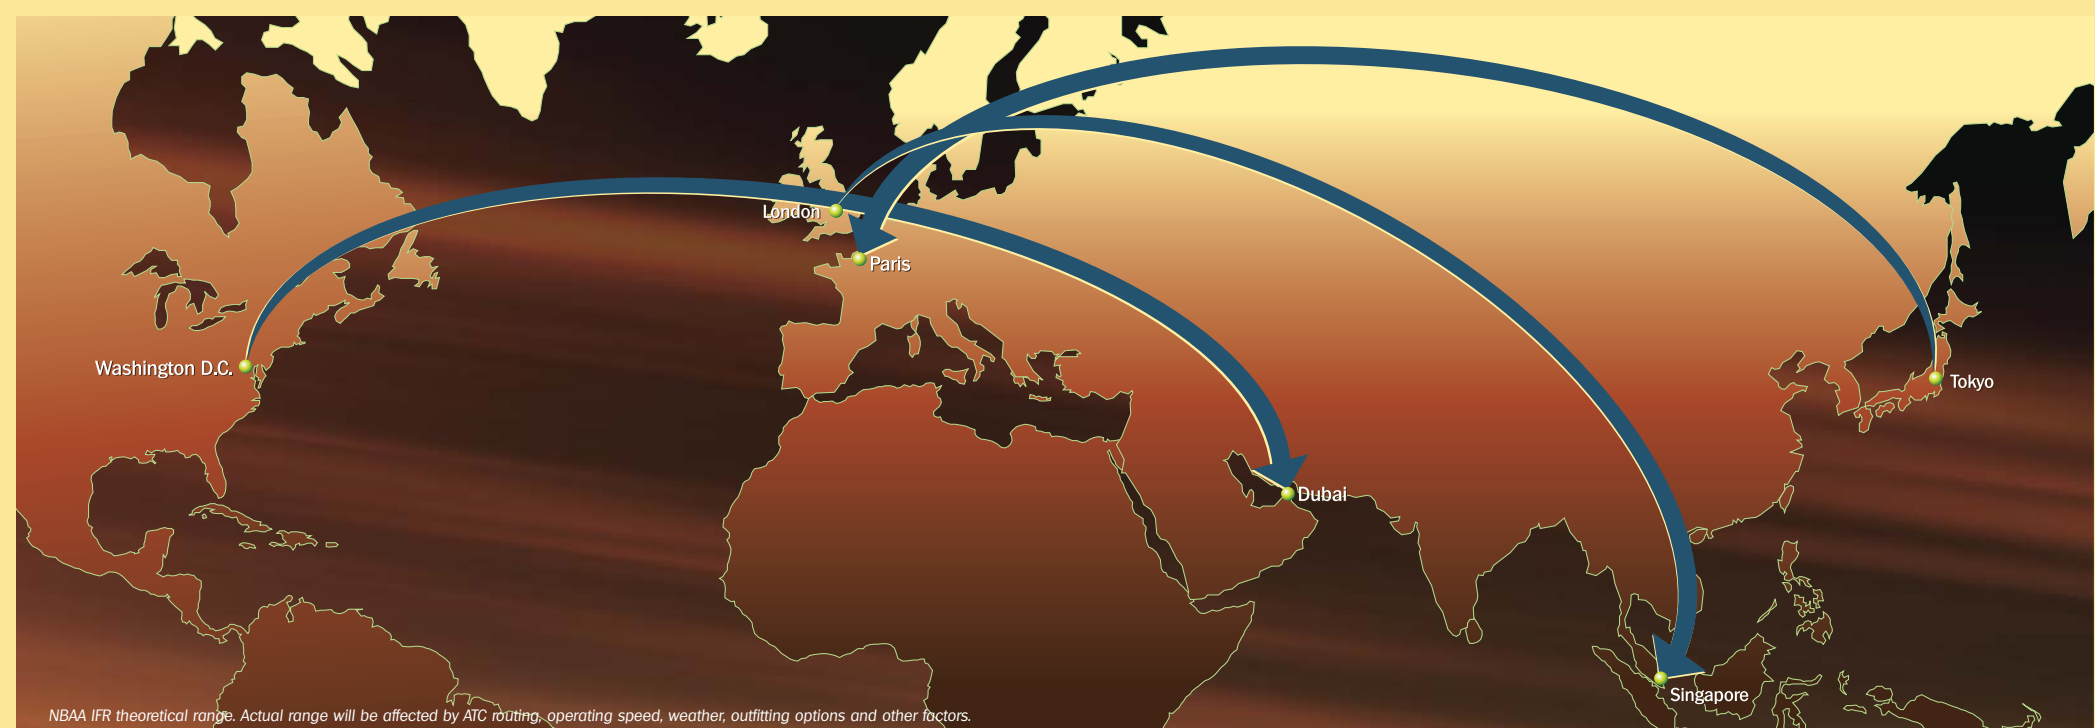

Superior Performance That **Goes the Distance**

Gulfstream Aircraft. Rolls-Royce Engines. Simply Remarkable.

Why choose upgraded Rolls-Royce BR710 C4-11 engines? To ensure an exceptional performance every time you fly. Rolls-Royce offers industry-leading reliability and maintainability allowing you 7,000 hours of flight time between engine overhauls. The G550's twin power-plants operate at peak efficiency for improved fuel economy while a larger fan and turbine enhancements provide excellent takeoff performance from demanding, short runways as well as improved performance from high-altitude airports.

Exceptional Performance. Proven.

The G550 is the longest-range business jet on the market today capable of traveling 6,750* nautical miles at Mach 0.80, with fast cruise speeds up to Mach 0.87 and a maximum operating speed of Mach 0.885. What's more, this impressive aircraft maintains high cruise altitudes of 41,000 – 51,000 feet allowing you to fly well above adverse weather conditions and airline traffic. But the G550 is also able to offer the best of both worlds and is efficient on short-range missions as well, in addition to offering excellent takeoff and landing performance, even from shorter runways.

#1 Rated Product Support Network

How do you define value? At Gulfstream, we believe the design of outstanding aircraft, with proven reliability, backed by top-rated product support gives “value” a whole new meaning – and year after year, our customers agree.

As a Gulfstream owner or operator, you can depend on award-winning, world-class customer service and support. We stand behind your flight operations 24-hours a day, seven-days a week, 52-weeks a year. Together, Gulfstream and General Dynamics Aviation Services own and operate 12 service centers and provide

an extensive network of authorized warranty and parts distribution centers around the world. Our Airborne Product Support dedicated aircraft ensures the timely delivery of needed parts or service technicians – wherever you are – whenever you need them.

Year after year we receive the highest satisfaction rates on industry surveys, win numerous industry awards and set impressive world records. But the recognition by our customers has and will always remain – by far – our highest achievement.

The Gulfstream G550 delivers one of the highest dispatch reliability rates in the industry. All achieved through excellent engineering and the unwavering dedication of Gulfstream’s Reliability, Quality, Availability Action Team (RQAAT) who continuously review and improve the components of every Gulfstream model.

- ✓ *By mid 2007, the G550 fleet achieved a 99.8 percent dispatch reliability.*
- ✓ *The G550 maintains some of the lowest operating costs in the industry and features the most extensive and comprehensive warranty of any aircraft in its class.*
- ✓ *The MSG-3 based maintenance program with 500 hours between major inspections reduces maintenance costs up to 20 percent.*

***Airborne Product Support
“We were the first business jet manufacturer to offer this value-added customer service,” said Larry Flynn, president, Product Support, Gulfstream.***

In two independent business jet operator surveys on product support, recently conducted by Aviation International News and Professional Pilot, Gulfstream was judged Number One.

The G550 offers the most comfortable, productive cabin in its class. It delivers the best performance in range, takeoff and high-cruise altitudes. Its technology provides significantly enhanced safety and reliability. All of this, and it still remains an outstanding value with the best warranty, some of the lowest operating costs, and the backing of the #1 product support network available today.

If you're looking for an exceptional ownership experience, we invite you to get on-board. Your G550 awaits.

G550
