The world is changing fast. Daily challenges, variable business scenarios, extreme operating environments. Today more than ever end-users expect values like safety, reliability, durability and flexibility. In response to these requirements, TECNAM has designed the ***P2012 Traveller Aircraft Series.***

Developed by the Tecnam Research & Development team led by renowned and award-winning expert Professor Luigi Pascale, the P2012 Traveller is innovating the market of 9-11 seats piston aircrafts.

Generous luggage allowance is provided both in a spacious cabin cargo hold and nose compartment with external access. An easy and fast seat removal, along with a wide rear door allow for a quick re-configuration.

In business for more than 70 years, Tecnam is ranked among the top General Aviation manufacturers, partnering with major industry players.

Firmly established as the manufacturer of choice for commercial operators attentive to efficiency and dynamism in business.
